ROADWAY / SIDEWALK CONSTRUCTION NOTICE

Dear Marlboro Street Resident,

The City of Newburyport's Department of Public Services (DPS) would like to inform you that the sidewalks that are currently in fair / poor conditions will be replaced on Marlboro Street from Water Street to houses numbers 13 and 14 Marlboro Street. DPS has awarded this sidewalk improvement contract to Allied Paving Corp. with an estimated start date of August 2016. The sidewalk replacement work will take about six to eight weeks to complete, and once fully complete, the final roadway paving of the street between Bromfield Street to Marlboro Street will be scheduled for later this year. Finally, pavement markings will follow two to four weeks after final paving.

Once again, we will only be replacing the sidewalks that are in fair / poor condition and any that may not be ADA compliant. If you are interested to know if your sidewalk will be replaced, feel free to contact Lisa Exum at 978-465-4464 extension 1701 or e-mail DPS@CityofNewburyport.com

Construction work will occur during the hours of 7am-3pm, Monday – Friday with occasional work occurring on Saturdays. "No Parking" signs will be posted temporarily prior to and during the work. Please adhere to these notices.

The City's representative will be on-site at frequent intervals to monitor the work and address any concerns you may have; or you may contact DPS Highway Division at 978-465-4464 ext. 1701 or by e-mail at DPS@Cityofnewburyport.com. As always, we thank you for your patience as we undertake this work.

Sincerely,

Wayne S. Amaral
Deputy Director / Director of Operations
