

City of Newburyport, Massachusetts Popular Annual Financial Report

Fiscal Year Ending June 30, 2019

About the City

About the "PAFR"

As part of Newburyport's commitment to keeping residents informed about how tax dollars are being spent, the City publishes a Popular Annual Financial Report (PAFR).

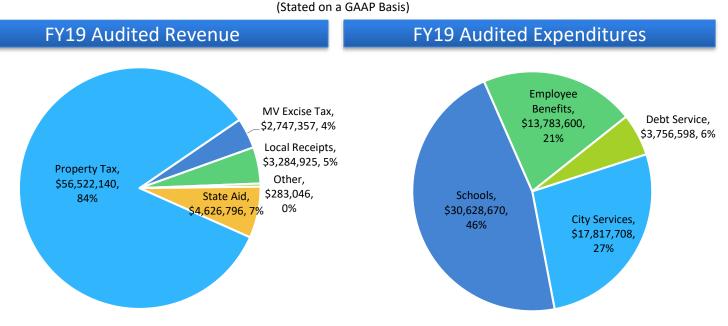

This PAFR presents a summary of financial information from the following sources: the audited financial statements, City Budget, Newburyport Pension Actuarial Valuation, Newburyport OPEB Actuarial Valuation, Public Employee Retirement Administration Commission and State's Division of Local Services.

It is the hope that the information presented in this PAFR will allow the reader to gain a better understanding of the financial health of the City. The City of Newburyport, incorporated in 1764, is a coastal, scenic, and historic city located 37 miles north of Boston with a population of approximately 18,000.

Newburyport is very proud of its history and is felt with some justification by its residents to be among the most beautiful; retaining as it does a large number of spacious, gracious Federalist homes built with the whaling and clipper ship fortunes of this 19th century seaport. An official Coast Guard City, Newburyport is also a designated Cultural District, as well as, a Green Community.

The City is governed by an elected Mayor and an eleven-member City Council. Responsibility for the general management and finances of the City are vested in the Mayor who is the chief executive officer of the City and heads all of its departments. A seven-member School Committee, of which the Mayor is Chair, and a Superintendent oversee the City's school district.

FY19 General Fund Revenues & Expenditures

<u>**Revenues</u>**: Property taxes are the single largest revenue source for Newburyport, comprising 84% of annual revenue. Motor Vehicle Excise Tax and Local Receipts comprise 9% of annual revenue, followed by State Aid (net of assessments) and Other Receipts.</u> **Expenditures**: A large component (46%) of General Fund expenditures goes towards the Schools (Newburyport Public Schools [NPS], Whittier Regional Technical H.S. and Essex Tech). Services provided by the City make up 27% of expenditures; Employee Benefits (City and NPS) 21%; and Debt Service (City and NPS) 6%.

Balance Sheet

-	Assets (resources owned) =			
/	Liabilities (amounts owed) +			
/	Deferred Inflows (resources to be			
	recognized in the future) +			
/	Fund Balance (reserves).			
	Fund balance has specific re-			
	strictions: Committed (Mayor/			
	City Council appropriations for a			
	specific purpose), Assigned (pur-			
	chase orders), and Unassigned			
	(available).			
	FY19 assigned fund balance			
	decreased due to a fewer number			
	of purchase orders			
	(encumbrances) at year-end.			
	FY19 unassigned funds increased			
	due to stronger than estimated			
	revenue.			
Statement of Revenues, Expendi-				
tures and Changes in Fund Balance				
Highlights				

Balance Sheet Highlights

- otal revenues increased by \$1.9 nillion, or 3.0%, from FY18 to Y19.
- ocal receipts increased by 13.9% ue to greater meals and rooms ax collections and increased vestment income.
- xpenditures for employee beneits increased due to more emloyees, higher insurance costs nd an annual 5% increase to the ension assessment.
- bebt service decreased to the oll-off of old debt issues.
 - und balance remains strong at 2.3% of total expenditures and nassigned fund balance at 10.4% f total expenditures.

This information is a condensed sion of the City's audited financial ements for June 30, 2018 and June 2019, which are accessible in *full* via the City website.

Major Liabilities

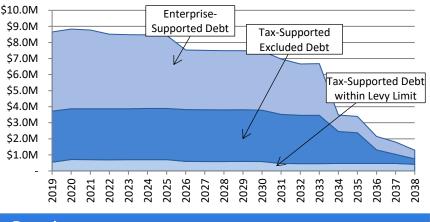

Liabilities are commitments that the City has made and calculated estimates of what will eventually be owed. There are three categories of major liabilities: Debt, Pension, and Other Post-Employment Benefits (OPEB). These liabilities are important to monitor since they can place a burden on future taxpayers and impact the long-term credit worthiness of the City. Accounting standards require municipalities to fully account for bonds payable, pension liabilities and OPEB liabilities.

Debt

Debt Overview

- The City borrows money to pay for various capital projects, such as water/sewer infrastructure, construction of new schools, renovation of facilities, and purchase of heavy equipment.
- It is the City's policy to only borrow for projects greater than \$500,000.
- A critical measure for credit rating agencies is the ratio of debt service payments to total expenditures. The City endeavors to maintain a maximum ratio of General Fund debt service to General Fund expenditures of 8.0%. The current percentage is 6.0%, well within the policy target.

Annual Debt Service for Long-Term Obligations as of June 30, 2019

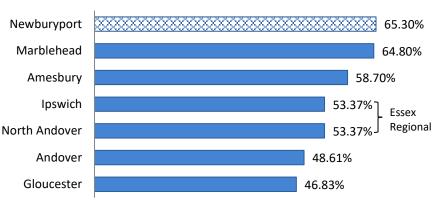

Pension

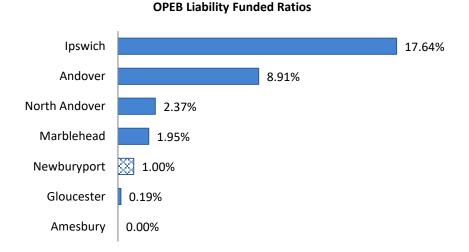

Pension Overview

- The Newburyport Contributory Retirement System manages the pensions for the City, Schools (nonteachers) and the Newburyport Housing Authority.
- The plan is 65.3% funded as of January 1, 2018 based on a Total Actuarial Liability of \$120 million and Assets of \$79 million. The liability is largely driven by employees that started pre-1996 at lower contribution rates.
- The current funding schedule increases by 5% each year and is projected to be fully funded in FY35. In FY19, the cost to the taxpayers and ratepayers of the City was \$4.8 million.

Pension Liability Funded Ratios

OPEB

OPEB Overview

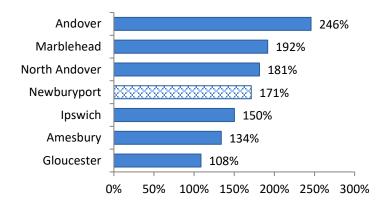

- Other Post-Employment Benefits (OPEB) represent the City' s liability for the cost of health care benefits provided to present and future retirees.
- New accounting rules (GASB 75) for FY18 require the full liability to be recognized on the balance sheet, whereas the former rule (GASB 45) recognized the liability in the footnotes to the financial statements.
- The plan is 1.00% funded with an Actuarial Accrued Liability of \$77.4 million and an Unfunded Actuarial Accrued Liability of \$76.6 million.
- The City established a trust in FY14 with a net asset value of \$773,676 as of June 30, 2019.

Economy and Taxes

Property taxes and local revenue are critical to the operation and fiscal health of municipalities. The charts below show how Newburyport compares with neighboring communities in terms of per capita income, home values, tax rates and tax bills. The last two charts drill down on City's economic-oriented revenue and the composition of the tax base.
