

Blue Options v.4/Blue Precision® v.4

Hospital Tiering

MASSACHUSETTS

Presented below are the Blue Options v.4/Blue Precision v.4 tiering levels for hospitals in Massachusetts, effective January 1, 2014.

Listed in the same row as each hospital's name is the overall benefit tier for that facility and the basis for the placement in the tier in terms of meeting quality and cost benchmarks. For more detail on how a hospital performed on our cost and quality benchmarks, visit www.bluecrossma.com/findadoctor.

- **Enhanced Benefits Tier**—Includes Massachusetts hospitals and PCPs that meet the standards for quality and low cost relative to our benchmark.
- **Standard Benefits Tier**—Includes Massachusetts hospitals and PCPs that meet the standards for quality and are moderate cost relative to our benchmark and hospitals that do not meet the standards for quality but are low or moderate cost relative to our benchmark. Also includes providers without sufficient data for measurement on one or both benchmarks. To ensure members have provider access in certain geographic areas, the Standard Benefits Tier includes some providers whose scores would otherwise put them in the Basic Benefits Tier.
- **Basic Benefits Tier**—Includes Massachusetts hospitals that are high cost relative to our benchmark and PCPs that do not meet the standards for quality and/or are high cost relative to our benchmark.

Hospital Name	City	State	Benefits Tier	Quality	Cost
Addison Gilbert Hospital	Gloucester	MA	Standard		
Anna Jaques Hospital	Newburyport	MA	Enhanced

Quality

- Met quality benchmark
- Did not meet quality benchmark
- Standard quality measures used to evaluate hospitals do not apply
- Insufficient information on quality (providers not measured)

Cost

- Met benchmark for lowest cost
- Met moderate cost benchmark
- Did not meet moderate cost benchmark
- Insufficient information on cost (providers not measured)

Note: Hospitals were measured based on their individual facility performance. Tier placement is based on cost and quality benchmarks where measurable data is available. Providers without sufficient data for either cost or quality are placed in the Standard Benefits Tier. PCPs that do not meet benchmarks for quality or moderate cost and hospitals that do not meet benchmarks for moderate cost or that use nonstandard reimbursement are placed in the Basic Benefits Tier.

This document gives general information about our tiered network plan designs. There are currently three tiered provider networks called HMO Blue Options v.4, HMO Blue New England Options v.4, and Preferred Blue PPO Options v.4. In our tiered plans, members pay different levels of cost share (copayments, coinsurance, and/or deductibles) depending on the benefits tier of the provider furnishing the services. A provider's benefits tier may change. Overall changes to the benefits tiers of providers will happen no more than once each calendar year. For help in finding the benefits tier of a provider, visit the online provider search tool at www.bluecrossma.com and search for the appropriate network.

Quality

- Met quality benchmark
- Did not meet quality benchmark
- Standard quality measures used to evaluate hospitals do not apply
- Insufficient information on quality (providers not measured)

Cost

- Met benchmark for lowest cost
- Met moderate cost benchmark
- Did not meet moderate cost benchmark
- Insufficient information on cost (providers not measured)

Note: PCPs were measured based on their HMO patients as part of their provider group, and hospitals were measured based on their individual facility performance. Provider groups can be composed of an individual provider or a number of providers who practice together. Tier placement is based on cost and quality benchmarks where measurable data is available. Providers without sufficient data for either cost or quality are placed in the Standard Benefits Tier. PCPs that do not meet benchmarks for quality or moderate cost and hospitals that do not meet benchmarks for moderate cost or that use nonstandard reimbursement are placed in the Basic Benefits Tier.
