Petition: - MGL c. 139, s. 1 Public Hearing re 107 State Street

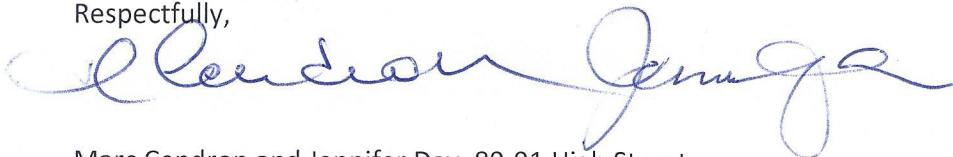

Dear Newburyport City Council Members:

On October 4, we and other neighbors began a petition appealing to you to take action under MGL Chapter 139 to resolve the issue of the abandoned gas station at State Street and High Street.

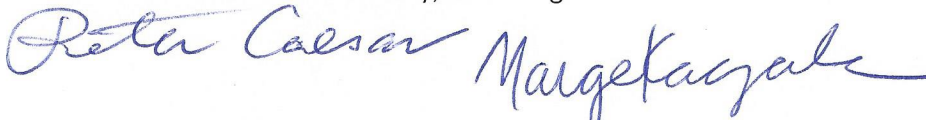

Four hundred (400) people signed the petition, on change.org, from October 4 through October 16. We are presenting to you only the names of the 339 signers who are residents of Newburyport. (Many other signers live in surrounding towns or do business in Newburyport.)

The petition remains active, but we wanted to get these names to you in time for the record and your consideration at your October 25 public hearing.

Respectfully,

Marc Cendron and Jennifer Day, 89-91 High Street

Peter Caesar and Marge Kaczala, 109 State Street

Novak and Stephanie Niketic, 93 High Street

cc: Honorable Mayor Donna Holaday, City Clerk Richard Jones

End the Blight at State and High

Newburyport City Council, we urge you to:

- **Find that the abandoned gas station at the corner of State and High is a public nuisance and creates a danger to children and the community at large.** *For more than three years this former Mobil gas station, now owned by Global Oil, has been an eyesore and a public safety hazard. It has become a site for public urination, used hypodermic needles, empty liquor bottles, and many other trespasses.*
- **Order Global Oil to demolish and remove the building and other structures, including the underground gas tanks.** *Although once a “grandfathered” gas station use in a residential zone, Global Oil closed the station in 2018, and let that use expire in 2020. Now, their continued failure to remove the underground gas tanks increases the risk of environmental contamination.*
- **Take all other actions needed to secure the property under the Massachusetts General Law on Common Nuisances (Chapter 139), and restore it to residential use.** *As a major gateway to Newburyport’s historic downtown, in a residential district, the station’s decaying building, pump apparatus, and signs are damaging to the city’s economy and welfare.*

This blight and danger cannot be allowed to continue to fester. An immediate resolution is needed.

Thank you, the undersigned residents of Newburyport, Massachusetts.
