Good question. I could be very amenable since it's private property. They could put in bushes instead of trees so they can get the privacy for the pool.

If they wanted to do trees, it would need to be a small tree due to the overhead wires. Our standard is a minimum of 1.75" caliper. I would recommend 2 Halesia Carolina (Carolina Silverbell) for trees since it has a broad canopy for privacy and flowers.

Hi Connie-

Can you tell me what species of trees you would like to see go in at 10 Sylvester and caliper size in place of the old juniper trees?

Thanks!
Katelyn
