RE: Request for Comments for Downtown Overlay District Special Permit
14-16 Temple Street, Newburyport, MA (the "Property"); Assessor's Map: 5, Lot 12.

Dear Chair and Members of the Commission;

Reference is made to the above-captioned matter. In that connection, this firm represents Nicholas Hantzis (the "Petitioner"), relative to the renovation of a structure on the Property. The Property currently includes a two-family structure. The Property is [0.08 acres] with 50.5 feet of frontage on Temple Street. The Property is located in the R-3 and Downtown Overlay Districts.

The Property is listed as contributory on the National Register of Historic Places. The structure is now on what is shown as an empty lot on the 1854 map by Henry McIntire and the 1894 Sanborn Fire Insurance Map of Newburyport. Given the Sanborn Map, we are confident that the structure was not built as of 1894. The structure on the Property is constructed as a boarding house with 5-6 bedrooms in the first-floor unit and 6-7 bedrooms in the second-floor unit. It sits between two other structures that date to the mid-1700s, and the parcel on which the Property now sits was first conveyed out as a separate piece of property in 1919. Prior to 1919 the Property was part of the lot that is now 10-12 Temple and part of the lot that is now 18-20 Temple. None of the persons who owned both parcels between 1894 and 1919 lived on Temple Street. Greenleaf Dodge, a Carpenter owned the lots from 10-12 Temple to 18-20 Temple when he was alive, in 1895 Greenleaf Dodge's widow conveyed one parcel to William M. Tibbetts, and the other to Hannah S. Tibbetts as wife of Russell S. Tibbetts. Both Russell S. Tibbetts and William M. Tibbetts were bakers. Neither of these deeds, going to different people mention splitting a building which would have been on part of both lots. Both of the properties were then sold to Hannah Swasey in 1911, who was the wife of Charles Swasey, proprietor of Swasey's Eating House at 31 Market Square. In 1919 the lot that is now 14-16 Temple Street was sold to Napoleon J. Jacques, a barber. All of these individuals appear to have acted as landlords with regard to the properties on Temple Street. It is very likely that structure on 14-16 Temple was built by 1919, given the deed description "with buildings thereon." The structure is shown on a 1924 map. A compilation of historical documents is attached as Exhibit A.

A full title exam for the Property was performed to 1855, and is attached hereto as Exhibit B. The Historic Register lists the structure as Greek Revival; Queen Anne style. The structure has a low-pitched front gabled roof and a wide band of trim below the roofline, one of the two front doors is covered with decorative brackets. See photographs attached as Exhibit C (one of the historical photos is of a different structure but is intended to show siding like that on this structure). The other door is not original and is not covered. The front of the house has a two-story bay window. Many of the windows now in the house are not original. The structure takes up much of the lot that it sits on but does afford pedestrian access to both sides of the structure. See site plan attached as Exhibit D.

The Petitioner, as part of the rehabilitation efforts proposes to replace the windows with windows that are consistent and historically appropriate and add additional trim around the windows to make them consistent with the house style. See plans attached as Exhibit E. A specification sheet for the windows is attached as Exhibit F. The Petitioner proposes to add additional trim to the front of the structure, both between the floors and at the top of the second floor to reestablish the Greek Revival look of the structure. The Petitioner proposes to remove a row of non-original windows on the southeasterly side of the first floor and a non-original diamond window from the northwesterly side of the first floor. The Petitioner also intends to replace the front bannister leading to the remaining door with something more historically appropriate than the single pole railing now in place. The Petitioner intends to add two doorways to the structure, one on each side, that are covered doors that generally match the existing style of the structure. The steps and bannisters accompanying these additional doors will be historically appropriate. Petitioner intends to add French doors to the rear of the structure, but this area is not at all visible from a public way.

The Petitioner is requesting the Historic Commission provide its comments pursuant to section XXVII-F(4)(d) of the NZO to the Planning Board concerning the proposed alterations as noted above.

The proposed alterations serve two purposes: the changes to the structure generally are being undertaken in order to improve the units inside the building, reduce the number of bedrooms, and convert the building from a two-family structure with a boarding house layout to a more functional two-family layout with all of the bedrooms for both units on the upper floor. The original underlying style of the structure will be enhanced especially on the front and the front of the sides which are most visible from the street. Petitioner believes that the changes to the structure, which is not especially remarkable from a historical perspective, will contribute to the two more remarkable historical structures that sit to each side of it. The sides of the building are somewhat visible from the street and the Petitioner believes that adding the additional means of egress from the structure with historically appropriate doors, and removing the non-matching door and row of windows from the front will improve the appearance of the structure. The envelope of the structure will not be expanded or altered in any way. No other changes are being proposed to the structure.

We look forward to presenting these proposed alterations to the Commission at its next meeting.

Sincerely,

Lisa L. Mead

Newburyport Historic District District Data Sheets

*Status Code: The contributing status of structures has been assigned based on the retention of pre-1930 designs.

C – Buildings which clearly have major identifiable elements of their original (pre-1930) designs.

INT – Those structures built after 1930 have been designated as intrusions.

MC – Structures which appear to pre-date 1930 and which are similar in scale and materials to their neighbors, but which have undergone

major alterations such that their period of origin cannot be readily determined, designated minor contributing structures.

GLASS

HIGH-PERFORMANCE GLASS

Glass can affect energy efficiency more than any other part of a window or patio door — and not all glass performs the same. Andersen offers one of the industry's widest array of glass options, so you're sure to find the right choice for your climate and your home. Choose from these High-Performance glass options.

Low-E4® Glass

Outstanding thermal performance for climates where both heating and cooling costs are a concern. It is up to 56% more energy efficient than ordinary dual-pane glass.*

Low-E4 SmartSun™ Glass

It gives you the benefits of Low-E4 glass, plus it helps shield your home from the sun's heat and filters out 95% of harmful UV rays while letting sunlight shine through.

Low-E4 Sun Glass

It's tinted for maximum protection from the effects of intense sunlight while providing all the benefits of Low-E4 glass.
