RE: Support for Application for Special Permit, 22-24 Olive Street

Dear Members of the Zoning Board of Appeals:

I am writing to express my support for the project proposed at 22-24 Olive Street. I am the owner of 31 Olive Street, which is directly opposite the subject.

The architect has done a fantastic job of blending the old with the new, certainly a lot better than the additions that exist there today. There is plenty of room on the lot for a reasonable addition like this.

Thankfully the proposal will keep the two units to help the city meet the extreme demand for housing.

As I understand it, the project also includes restoration of the interior and exterior of the existing building, which is admirable.

I cannot see any legitimate detriment to the neighborhood, only positives, and therefore feel the application is worthy of approval.

Thank you,

Heather Beauparlant
