RE: 316 High St.

Dear Chair and Members of the Board;

I am an abutter to the property noted above. I have been provided with plans which show the proposed addition to the pre-existing structure. I do not think the applicant would be receiving a special privilege if the Board grants a Variance and Special Permit for the project. It will also have minimal impact on the surrounding neighborhood, if any. I have no objection to the application.

Sincerely,

Michelle Gray
