All,

Please see the below email, following the Children's Health Care building about the fence we wish to replace. They just called me and sent the below email following our discussion, this is their second call to me in the past few months. I'd like this to be shared with the board prior to the meeting if possible.

Thank you for your time.

Hi Jim,

Thank you for speaking with me about the unsightly fence that abuts our practice. As I explained to you, the fence is in terrible shape and we have received complaints from the families who bring their children to our pediatric practice. The assumption is that the fence is owned by Children's Health Care. I am happy to hear that you are taking steps to replace the fence with a new white vinyl fence. Please let the planning board know that the physicians who own Children's Health Care are in full support of having the unsightly fence replaced as soon as possible. I look forward to hearing

from you after the Planning Board Meeting, or, even better, to see a new fence installed shortly after the meeting.

Thank you,

Katherine Thatcher
