Message:

Good afternoon all,

Mr. Connell was kind enough to come and speak with a few of us in Oleo Woods, which I appreciate and respect. However, he offered no information that made any of us feel less strongly about what a personal folly this truly is. Quite the contrary; if anything it has further strengthened our resolve to fight this tooth and nail. Mr. Connell was unable to provide any supporting evidence that the wind turbines will produce enough energy to justify killing all of the trees and conservation land that would need to be destroyed. On that note, we are going to do whatever is necessary to fight any type of rezoning at all and have already begun to network for environmental lawyers as well as reaching out to local media. To be clear, we will conduct the same level of effort to combat any type of rezoning whatsoever, whether for turbines or otherwise.

I know you have heard from many of us but I assure you, we have just begun to mobilize. On that note, a few of you have been kind enough to respond with your position and we would like to know where all of you stand. This neighborhood has become well ingrained in the community through our kids, schools, sports, etc...a good number of us are volunteer coaches. So, our reach goes well beyond Oleo Woods. With elections looming we ask that you make your stance known.

Thank you,  
Mark Neville
