RE: File No. 2018-SPR-01

Dear Planning Board:

Our Site Plan approval documentation dated March 21, 2018 informs us that the approval is valid for 2 years from the date of filing with the City Clerk, which was on March 29, 2018.

We continue to actively explore avenues to fund the project, but the funding is not in place as of yet, and will not likely be for another year.

I am writing to inquire regarding the process to file for an extension to our approval.

Thank you for the consideration.
