Newburyport MA 01950

Attention: Planning Board Members - Meeting Nov. 4th, 2020

As residents in Historical Newburyport, we are deeply concerned about the massive size & expansion of the IFS bank's proposed addition to our historical neighborhood.

We are hoping the Planning Board will continue to recognize, that the size and proportion of the massive proposed addition, has been and still is the issue.

Please record our opposition to this massive project in our Historical neighborhood.

Sincerely,
Colin & Pat Banfield

external e-mail use caution opening

To;
Chairperson Bonnie Sontag,

As a business owner in downtown Nbpt for many years, Inn Street Barbershop I certainly remember the days when downtown Newburyport was not this vibrant. Changes go on in communities every day every year, they have happened all throughout the city .Institution for Savings has been a landmark since the 1800s, there used to be property on that location !! While I sympathize with the neighbors I think you have to agree that the Institution has gone above and beyond trying to please their concerns.

At the end of the day I feel they've proposed a beautiful addition. They need the space for their employees and to

continue as a great bank that serves the needs of many and are also very generous to many organization in city & surrounding cities .

I hope you reconsider and vote FOR the expansion,

Thank you for your consideration ,

Esther M Sayer
